INDEX TO VOLUME 7

A

Aborigines, Australian:
Hearing and ear disease (Abstract), 169
Some anomalies in brain lipid composition (Abstract), 174
Intervention in cultural deprivation: The comparative success of preschool techniques for rural aborigines and Europeans (Abstract), 175

Adamson, T. M., Lambert, T. F., Maloney, J. E., Ritchie, B. C. and Walker, A.: Foetal lamb lung liquid (Abstract), 175

Albutt, E. C. *See* Theodoridis, C. G. *and others*

Alexander, G., Thorburn, G., Nicol, Dianne and Bell, A.: The thermogenic response to cold in prematurely delivered lambs (Abstract), 175

Amino Acid Metabolism: A method of in vivo investigation (Tompkins, J. R. and Hobday, J. D.), 143

Amputated Fingers: Conservative treatment (Abstract), 172

Amyloidosis in children in Papua-New Guinea (Abstract), 165

Anastomosis: Systemic to pulmonary artery anastomosis in the first 3 months of life (Glasson, M. J., Celermajor, J. M., Overton, J. H. and Cartmill, T. B.), 45

Anderson, R. McD. *See* Rooney, J. C. *and others*

Antibody Reactivity of products of fibrinogen and fibrin lysis (Abstract), 176

Anyon, C. P. and Clarkson, K. G.: The faecal excretion of low molecular weight fatty acids in premature babies, 34

Aplastic Anaemia: Changing prognosis with oxymetholone (Abstract), 166

Asplenia Syndrome (Abstract), 168

Arterialisation of Capillary Blood by histamine iontophoresis in endotoxin shock (Abstract), 175

Australian Paediatric Association:
Minutes of the 16th Annual Meeting, 162
Abstracts of Papers, 163

Axillary Lymphangioma, Giant (Abstract), 172

B

Baikie, A. G., Baker, H., Henderson, A. S. and Lewis, J.: Some teenage attitudes and behavioural characteristics in a continuing survey (Abstract), 167

Baker, Heather. *See* Baikie, A. G. *and others*

Baker, W. de C. *See* Harris, M. J. *and others*

Bell, A. *See* Alexander, G. *and others*

Bevan, Mary. *See* McMahon, R. A. *and others*

Bile Salts, effect of, on intestinal sugar transport in vivo (Abstract), 177

Billson, F. and Hopkins, I.: Optic glioma in early childhood — the importance of nystagmus as a presenting sign (Abstract), 163

Bisolvon: *See* Bromhexine

Blackhall, Margaret: The effect of Bromhexine (Bisolvin) on lung function in patients with cystic fibrosis (Abstract), 170

Bladder: Morphometrics of leiomyocytes of, in normal growth and hypertrophy (Abstract), 171

Bloomfield, Jeanette, Warton, Kathryn and Brown, J. M.: Submandibular saliva as an investigative tool in cystic fibrosis (Abstract), 174

Bone Disorders: An anonymous disease of the bones of small premature infants; possibly copper or other trace element deficiency (Abstract), 164

Bowring, A. C. *See* Parkinson, R. S. *and others*

Brain Lipid Composition: Some anomalies in aboriginal children (Abstract), 174

Brand, K. *See* Latham, S. *and others*

Bromhexine:
The effect of, on lung function in patients with cystic fibrosis (Abstract), 170
Pancreatic studies in patients with cystic fibrosis. Preliminary results of therapy (Abstract), 170

Bronchiolitis: The relationship between proven viral bronchiolitis and subsequent wheezing (Abstract), 170

Brown, G. A. *See* Theodoridis, C. G. *and others*

Browne, J. M. *See* Bloomfield, Jeanette *and others*

Browne, T. C. K. *See* Clarke, C. P. *and others*

Buckfield, B. M., Holdaway, M. D., Horowitz, S. and Keen, M. R.: Bilateral congenital choanal atresia associated with anomalies of the foregut, 37

Butler, I. J., Hopkins, I. J. and Smith, M. A.: Neurologic handicaps after low oestriol excretions in pregnancy, 92

Burke, Valerie, Gracey, M. and Oshin, Ademola: The effect of bile salts on intestinal sugar transport in vivo (Abstract), 177
—*See also,* Gracey, M. *and others*

Burn Wound Sepsis: Control of, with topical sulphonamide (Abstract), 172
